  - \* Rough Plumbing
  - \* Pressure Water Test
  - \* Sanitary/Storm System
  - \* Final Inspection
- 

## **UPON COMPLETION OF CONSTRUCTION**

The following are necessary for the issuance of a Certificate of Occupancy for the work done under this permit:

1. As built drawing, if original drawings have been altered. If alterations increased construction cost, additional fee is required.
2. Final survey is necessary for all new building and where a change to the building size or plot has occurred.
3. Inspection by the New York Board of Fire Underwriters and an Electrical Certificate for same.
4. Final inspection by the Building Inspector. Call for an appointment.
5. Final Cost affidavit. Based upon the Final Cost Affidavit, the 1% of construction cost shall be recalculated. To the extent the recalculation cost exceeded the initial calculation cost an additional fee will be required. No portion of the fee paid upon the filing of the application will be refunded.
6. Professional Certification by licensed architects and engineers.
7. Commercial Only – Fire Marshall & Health Department approvals and sign offs if required.

## **Ordinance IV, Section 7 – A**

Commercial builders must present Village with a letter stating that they would have a licensed engineer or architect on the job to confirm that the job is in accordance with the approved drawings.

(Form of letter: To Bldg. Inspector:

Please be advised that I, the architect, and my consulting engineer will review the above project during construction to confirm that new construction will be in accordance with all plans, specifications and codes.)

When job is completed, the engineer must confirm in writing that it was done in accordance with the drawings.
