

VILLAGE OF PORT WASHINGTON NORTH
November 2004

LEAF PICKUP 2004

The Village of Port Washington North will again provide free leaf pickup.

The pickup crew will pass through your street only once in December. Please keep your cars off the street on leaf days. No bagging is necessary.

It may be hazardous to park your car over piles of leaves. Sweep your leaves into the street the day before your scheduled pickup. Please, do not pile your leaves in the street any sooner. In case of rain, the removal shall be done on a subsequent day during the same week.

You were notified by mail on a yellow flyer, of the November pickup dates.

Here's the December Leaf pickup calendar:

Thursday, Dec. 9

Angler Lane	Marlin Lane
Bay Drive	Port Drive
Boat Lane	Sandy Court
Cow Neck Road	Schooner Lane
Dock Lane	Seagull Lane
Driftwood Drive	Seaview Lane
Fisherman Drive	Stemboat Drive
Island Court	Waterview Drive

Thursday, Dec. 16

Avenue B	Old Shore Rd.
Avenue C	Orchard Street
Cove Lane	Pleasant Ave.
Channel Drive	Radcliff Avenue
Durbyan Place	Smull Place
Harbor Road	Soundview Drive
Morgan Place	Valley Road

TOMPELLEGRINO

A Message From The Mayor

Dear Neighbor,

It has been a wonderful year for our Village. Exciting and promising things continue to happen in Port North.

For more than the past 30 years, I have had the privilege of serving as Mayor of our charming little Village. I've had the pleasure of working with many fine residents in building Port North into a pleasant, tranquil and upscale place to raise your family, and spend your golden years. Our Village is a wonderful place to live.

With each year, our Village undergoes change. This year we are so fortunate to have a cohesive and talented Board of Trustees to guide the Village through the challenges we face. Long term board member, my friend Gary Levi and I are so lucky to be working with three new team members. Deputy Mayor Bob Weitzner has grown into a hard-working, vital member of our team. Newcomers Mike Schenkler and Steve Cohen have impressed all with their business savvy, hard work and dedication. The team has made this wonderful year possible for me, and I am grateful.

I am grateful that together we have received grants to enhance Shore Road and plan for our Waterfront Park. I am thankful to have the opportunity to participate in the planning and building our new Village Hall and Club. I am pleased we have had the foresight to review Village Zoning and look forward to a comprehensive plan to preserve the quality of life in Port North. There is so much more.

Our proactive Board of Trustees has been there with creative solutions and together we possess a vision of a future Port North which will offer you and your family comfort, relaxation and the quality of life we all seek.

Yes, I have a great deal to be thankful for. I am grateful for the opportunity of having served Port North for so many years.

As Thanksgiving approaches, I hope you all have as much as I do to celebrate.

On behalf of the Board of Trustees, I wish you and your families a Happy Thanksgiving.

Neighborly yours,

Thomas Pellegrino
Mayor Tom Pellegrino

**Happy Thanksgiving
and a wonderful
holiday season**

Legislating On Behalf Of The Residents Of Port North

By Michael Schenkler

The role of the Board of Trustees goes far beyond the approval and implementation of an annual budget and the passing of laws.

Crisis management, involvement with grants, development, zoning and projects like the Village Club keep an overworked Board very busy.

But as a major part of its responsibility, the Board does legislate. So we present, for your perusal, a brief description of the Port Washington North Local Laws passed this year beginning April, 2004.

√ **Local Law 1 of 2004 – Repealing Chapter 107, Historic District, of the Code of the Village of Port Washington North**

At the request of the residents of the Historic District who originally requested the District, it was repealed.

√ **Local Law 2 of 2004 – Amending Section 143-18, Responsibility for Sidewalk Maintenance, Snow, Ice and Debris Removal, of the Code of the Village of Port Washington North**

Strengthened enforcement procedures enabling the Village to have safe and clean streets.

√ **Local Law 3 of 2004 – Amending Article 11, Delco Plaza Shopping Center,**

of Chapter 121, Parking of the Code of the Village of Port Washington North, to Include the new Stop and Shop Shopping Center Parking Lot

At the request of Delco and Stop & Shop, this Law enabled the PWPD to enforce traffic laws in the new parking lot.

√ **Local Law 4 of 2004 – Amending Certain Fee Provisions of the Code of the Village of Port Washington North**

A long-overdue, comprehensive update of the Port North building fee schedule was completed and enacted. (See page 6).

The following series of Laws were all designed to maintain the quality of life and tranquility of Port North:

√ **Local Law 5 of 2004 – Amend the Zoning Provisions of the Code of the Village of Port Washington North with regard to Food Establishments**

Provided that food establishments were no longer automatically permitted in the Business District and now require a Conditional Use permit granted by the BZA.

√ **Local Law 6 of 2004 – Restricting the Location of Fast Food Restaurants, Fast Food Convenience Stores, and Fast Service Stores within the Village of Port**

Washington North

Required a setback of 150 feet from Shore Road for all fast food restaurants, convenience stores or fast service stores.

√ **Local Law 7 of 2004 – Amending Chapter 143, Streets and Sidewalks, of the Code of the Village of Port Washington North, to Prohibit the Use of Streets for Commercial Purposes**

Further limited commercial parking in the Village.

√ **Local Law 8 of 2004 – Providing that All Permitted Food Establishments within the Village of Port Washington North Require Conditional Use Permits from the Board of Appeals**

Extended the conditional use permit requirements for food establishments to other all applicable zones.

√ **Local Law 9 of 2004 – Amending Certain Provisions of Article XI, Industrial District, of Chapter 176, Zoning, of the Code of the Village of Port Washington North**

Prohibited retail, wholesale and distribution centers in the Industrial Zone.

The entire Village Code can be found by clicking on "Village Code" in the upper right hand side of our Web site home page: www.portwashingtonnorth.org

**Meet the Village Treasurer:
GEORGE STACK**

As Treasurer for the Village, George is the budget officer and chief fiscal officer. He

George Stack

maintains the Village's books and reports regularly to the Board of Trustees. As budget officer, he develops the Village's annual operating budget and assures that the budget remains in balance at all times and all receipts and

expenditures are properly classified in conformance with a uniform system prescribed by the State. In addition, he is entrusted with safeguarding and reporting on all Village funds, assuring that all monies are placed only in authorized depositories. He prepares the payroll and pays all bills. He provides the Board of Trustees with a monthly abstract of audited vouchers and presents it at the Village's regular monthly meeting. He tracks reimbursable expenditures incurred by the Village pertaining to applications before the planning and zoning boards. He bills the applicants and provides summaries to the Board of Trustees.

George has seventeen years of accounting experience including both private industry and municipal (fund) accounting. He is a *summa cum laude* graduate of Marquette University where he studied Accounting and Economics. He ranked second in his graduating class and received the faculty award for outstanding student majoring in economics. He taught economics at the University of Wisconsin – Platteville for one year before receiving a graduate fellowship from the University of Pennsylvania. There, he studied moral philosophy & ethics in the analytical tradition for six years.

Palma Torrisi

Meet the Deputy Clerk: LINDA KROPACEK

Born and raised in Port Washington, Linda attended the Port Washington Public Schools. She was married in 1981 to Rob Kropacek, also a Port Washington native. They have two children, Bobby, 19, and Lauren, 18. Linda has been the Port North Deputy Clerk for five years. Prior to that, she was the Deputy Clerk Treasurer for the Village of Great Neck Estates, and was the Court Clerk for the Village of Manorhaven.

The Deputy Clerk assists the Village Clerk in the daily operations of the Village. She serves as the Secretary to the Building Department, processing building permit applications and handling all the Building Department's correspondence. She is also the Secretary to the Board of Appeals and the Planning Board, assisting applicants and processing applications. Linda attends and coordinate all of their meetings.

Linda Kropacek

To keep her busy Linda is also the Assistant to the Treasurer, making bank deposit, transfers and any assistance required. She can be found at the office handling telephone inquires and assisting the public. She also finds time to prepare the tax bills and process the mail.

Meet the Village Attorney: STEPHEN LIMMER

The Village Attorney acts as general counsel to the Village. He is called upon on almost a daily basis to assist the officials and employees of the Village with legal questions that arise in the normal operations of the Village with regard to such things as interpretations of the Village Code, freedom of information requests, review of contracts, and proposed legislation. In addition, the office of the Village Attorney attends the meetings of the Village's Board of Trustees, Zoning Board of Appeals, and Planning Board, and assists those boards with their legal questions and in the drafting of resolutions and decisions. The Village Attorney ae thwit deas prsecuttociae serficsk for violations of the Village Cods. The 231.7(V)4963(illage)72.7(illagessiice 1973s and hse servds as the Villagf

Bits and Pieces

√ Skateboarders at Stop & Shop Plaza have caused serious damage. The planter boxes and walls by the new Radio Shack have been damaged due to youngsters who skateboard in the shopping center in violation of Village ordinance. Additional skateboard damage has occurred in the area behind the shopping center in spite of questions of trespass and safety. Please speak to your children and tell them that bicycling, skating and skateboarding are prohibited from shopping centers in Port Washington North.

√ We hear it might snow this winter. So please let this serve as a reminder that your neighbors use the sidewalks which offer the only safe path for foot traffic for school kids, seniors and us all. It is the homeowner's responsibility to clear the snow off the sidewalk within 24 hours of a snow.

√ Bob Keane has been appointed Commissioner of Environmental Affairs. Bob a Port resident since '94, has a BS in Civil Engineering and is a registered professional engineer. He's been an environmental consultant for 14 years and has worked for Walden Associates (Oyster Bay) for the past seven. He represents the Village on the Manhasset Bay Protection Committee and prepared the Village's first annual storm water report to the NYSDEC last year.

The dedication of the Star Class Keel monument (above) at Pellegrino Park, (l-r): Walter "Duke" Dayton, Tom Pellegrino, Bob Weitzner, Gould "Stretch" Ryder.

Plants, Benches, A Clock, & Now A Keel

Pellegrino Park, the lovely waterside oasis with the antique clock you drive by daily, was the site of a dedication ceremony recently. The park, located diagonally across from Mill Pond, opposite Tease restaurant and next to Barbara Johnson Park, is now home to a Star Class Keel monument installed by the Nautical Center of the Port Washington Library.

Mayor Thomas Pellegrino and Trustee Robert Weitzner, Gould "Stretch" Ryder from the Nautical Center, Walter "Duke" Dayton, past commodore of the Port Washington Yacht Club, and many other members of the sailing community were present as the keel was unveiled.

The Star Class Keel monument is an original keel from the Purdy Shipyard that produced many Star Class boats during the early days of this class of boat. The handsome white monument mounted with a bronze plaque was installed at the park, the site of Isaac Smith's Boat yard, which produced the first Star Class boats during the winter of 1910 and 1911. The Nautical Center had been working on this project for several years.

Mayor Pellegrino and the Board of Trustees are thankful to the Nautical Center and all interested parties who made the location of the keel in the park possible. The Village especially wishes to thank Walter "Duke" Dayton, father of Deputy Clerk Linda Kropacek, for having the vision for this project and all the volunteers who contributed their time and energy to make this happen.

Improving Shore Road

We are pleased to announce that Port Washington North has been awarded a grant of \$280,200 for the improvement of Shore Rd., under the NYS Department of Transportation Local Safe Streets and Traffic Calming Program

The grant written by Deputy Mayor Bob Weitzner provides for traffic calming and pedestrian/bicycle safety crossing along and across Shore Road. Concepts such as traffic medians, new and improved crosswalks, and continuous speed monitoring devices are some of the improvements being considered.

The Village has hired the engineering firm RBA Group to coordinate the project. Work is projected to begin by the summer of 2005. Meetings with neighboring municipalities, special districts, special interest groups, and local residents will take place for input prior to any plan being finalized. The Village will notify the community once a meeting date has been established.

Once completed, this project will make Shore Road safer and more enjoyable for drivers and pedestrians alike.

Radio Shack Moves In

The town's first national retail chain store just opened in Port North in Stop & Shop Plaza. Radio Shack will now serve your computer and electronic needs much closer to home.

The Inside Scoop: The Village Club, Big Box Stores

By **MICHAEL SCHENKLER**

Greetings – welcome to the Port North version of a political column I pen for my weekly newspaper in Queens. Weekly in my workday life, I try to relate to my readers the inside story of what really goes on in government.

As a Trustee of Port North, I hope to offer you at least as much. Committed both personally and professionally to open government, I share with you my perceptions and take on two dramatic issues of concern to our village: the Village Club and the prospect of large box retailers moving into the Channel Drive industrial area.

In both cases, I have good news, but I'm also concerned that hard work and vigilance will be required to ensure positive ends.

Let me explain.

THE VILLAGE CLUB

I've had the privilege of chairing the Village Club Commission. It has been an eventful time in working to make the dream a reality.

We have received more than 200 returns of our Village survey and more than 90 percent of the residents endorsed the Village Club. Other significant results of the survey can be found in a box on this page.

We were hoping by now to announce that the eight-acre parcel was deeded to the Village as part of the Mill Pond Estates development. However, the developer has moved slowly but negotiations indicate we

should take title any day now. The Mill Pond developer who originally agreed to build the club has now backed out of that offer and leaves the Commission with the challenge of hiring an architect, project manager and builder to bring our club to life.

The logo from my weekly Tribune column

Our Village Club will be more than a Club the building will also be our new Village Hall. In addition to the \$875,000 to be contributed by Mill Pond Acres Acres, the Board of Trustees has negotiated an additional \$125,000 to bring the Village Hall and the Village Club into our own building, on our own land. The Board recently set aside all of those non-tax funds -- \$1,000,000 -- to complete this exciting project.

As we anticipate the transfer of title, the commission will again begin to meet to plan its task of hiring an architect and project manager to see the project realized. Anyone in the Village with expertise or experience in this area, please offer to help by e-mailing me at news@portwashingtonnorth.org.

Although we won't make the summer of 2005 with our own land, \$1 million dollars and the support of the residents, the Board of Trustees looks forward to 2006 and the future Port North with a new Village Hall and a new Village Club.

See you at the pool!

BIG BOX STORES

Rumors can be scary!

Let me try to deal with one that has been buzzing around town.

Those of you who have heard that Home Depot is buying the Thomson property and building one of its Big Home Improvement Centers, relax.

I don't think it's going to happen and here's our involvement in the ongoing process.

I received a call from a friend telling me that the folks from Corporate Home Depot would like to chat. With the consent of the Mayor, I invited them to my *Queens Tribune* office for an informal meeting, where they proceeded to inform me of their option to buy Thomson and their plans to build a Home Depot there. They were professional, skilled and armed with plans, law and experience.

I was firm in my resolve that such a store would not be welcomed in Port North and that the resultant traffic exiting from Channel Drive would be devastating for Shore Road. They requested a formal meeting with the Board of Trustees.

The Board of Trustees was resolute in our opposition to their plans and the Mayor asked Steve Cohen and me to head up our effort. Steve and I met with Home Depot at Village Hall and expressed our absolute opposition. The Board drafted and subsequently passed new legislation preventing Home Centers, Distribution Centers, and Wholesale or Retail Stores from being in the Industrial Zone.

We have been told, for the moment, the Home Depot option is not being pursued by Thomson.

Cognizant of the litigious nature of developers and the precarious zoning game, we have reached out to Thomson's owners, the multinational Danaher Industries. Steve Cohen and the Mayor had an initial meeting and Steve has taken the lead in urging Danaher to develop a plan that would be palatable to our Village.

Aware of the traffic and environmental impact of many of the allowed uses, Steve and I have been designated to try to work with Danaher to develop a plan that would least impact the Village and preserve the Thomson lawn for the Village's future.

We have met with their corporate representatives and await their proposal. The Board remains vigilant in its effort to preserve the quality of life in Port North.

Sisina: A New Trattoria

On the site of the former Bossa Nova, Port North's gracious restaurateur Michael Tizzano has opened a new Italian Trattoria named for his mother.

Stop & Shop's New Sidewalk

The Shore Road sidewalk will get better. We promise, and so does Stop & Shop.

The narrow asphalt sidewalk along Shore Road in front of the new Super Stop & Shop is only temporary and very soon, change will be under foot.

Stop and Shop and the Village have worked together to update the original sidewalk plan to replace the exact sidewalk that existed before the store was built. The narrow concrete walkway with utility poles and a fire hydrant directly in its path, situated right up against Shore Road will be a thing of the past. After many months of planning, Stop & Shop and the Village came up with an updated plan calling for a 5-foot, wine-colored, stamped concrete walkway, with a 3-foot utility strip separating it from Shore Road.

The new sidewalk will meander around the utility poles, creating an open, free-flowing pathway that, when combined with the battery park lantern lighting currently in place, will be beautiful to look at and a delight for the pedestrians to use. Included in the plan are enhanced crosswalks and handicap aprons along each of the store's two entrances as well as two benches facing the waterfront.

The total cost of the improved project is being absorbed by Stop & Shop as part of its commitment to be a good corporate neighbor.

"We appreciate the support the community has given our supermarket. We are delighted to be a part of Port Washington and thrilled to give something back to its residents in the form of this enhanced streetscape," said Stop & Shop Vice President Frank Maglio who worked on the project with Deputy Mayor Bob Weitzner. Weitzner added, "What makes this plan so special is that it will blend in well with our future Bay Walk Waterfront Park that will be constructed across the street.

The Board of Trustees wishes to express the gratitude of the Village of Port Washington North and the Port Washington community, to Stop & Shop for its generosity in supporting and funding this project.

CONTESTS WANTED please submit your contests to news@portwashingtonnorth.org

Record Management

The Village of Port Washington North was awarded \$11,032 under the Local Government Records Management Improvement Fund (LGRMIF). The proceeds from this grant will be used to supplement the Village's archiving and file management project that is underway. The Village's highest priorities are to produce a backup of all vital files in case of fire/ water damage, theft or misplacement, and to improve the way our files are kept and accessed by the Village's staff and its residents.

The Village is currently interviewing companies who will perform the task of digitizing our property record files. They will then put this data into a data-referencing program. Once this task is completed, the Village will move forward with the purchase of software that will enhance our office's ability to access, digitize, disseminate, and print documents.

I am thrilled we got this grant award for our Village. This money will go a long way to help pay for the services needed to safeguard our vital documents and improve the way we access and use them." Said Deputy Mayor Bob Weitzner, who is coordinating the project.
